

Name	Mei Jia	
Title	Associate professor	
Postal Address	Department of Mathematics, College of Science, University of Shanghai for Science and Technology, No. 334 Jun Gong Road, Shanghai, 200093, P. R. China	
Email:	jiamei@usst.edu.cn	
Education	1994.09-1997.03, M.S., Department of Mathematics, Beijing Institute of Technology; 1981.09-1985.07, B.S., Department of Mathematics, Hebei Normal University	
Employment	2000.08-present, Associate professor, College of Science, University of Shanghai for Science and Technology; 1985.12-2000.08, Associate professor, Chengde Petroleum College;	
Teaching	Mathematical Analysis (for undergraduate) Advanced Mathematics (for undergraduate) Probability Theory and Mathematical Statistics (for undergraduate) Introduction to BVP for Ordinary Differential Equations (for postgraduate) Functional Methods in Nonlinear Ordinary Differential Equations (for postgraduate)	
Research Interests	Theory and application of differential equations	
Research Projects	1. 2012.01–2015.12, Participate in National Natural Science Foundation of China (No. 11171220); 2. 2010.01 – 2012.12, Participate in Program of Shanghai Municipal Education Commission (No.10ZZ93); 3. 2005.10 – 2007.12, Participate in Foundation of Educational Department of Shanghai (No. 05EZ52).	
Publications Preprints	[1] Mei Jia , Zhang, Haibin; Chen, Qiang. Existence of positive solutions for fractional differential equation with integral boundary conditions on the half-line, <i>Boundary Value Problems</i> , (2016) 2016: 104: 1-15. (SCI); [2] Mei Jia , Liu Xiping, Multiplicity of solutions for integral boundary value problems of fractional differential equations with upper and lower solutions, <i>Appl. Math. Comput.</i> , 232(2014): 313-323; (SCI, EI) [3] Mei Jia , Xiping Liu; The Existence of Positive Solutions for Fractional Differential Equations with Integral and Disturbance Parameter in Boundary Conditions, <i>Abstract and Applied Analysis</i> , 2014(2014), (SCI) [4] Mei Jia , Pingyou Wang, Multiple positive solutions for integro-differential equations with integral boundary conditions and sign changing nonlinearities, <i>Electronic Journal of Differential Equations</i> . 2012 (2012), No. 31, pp. 1-13.
